NOTICE PAPER

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.
12. *Mr. Makarchuk*—Resolution—That this Government should take immediate measures to clean up the pollution in the Grand River in order to facilitate the use of the river for recreational purposes.
20. *Mr. Reid* (Scarborough East)—Resolution—That, in the opinion of this House: (a) any member of the Legislature of Ontario shall have the right to address the Legislature in either English or French; (b) the Department of Education shall establish special French language courses for Members of the Legislature wishing to acquire or improve their knowledge of French; (c) the Department of Civil Service and the Department of Education shall establish French language courses for civil servants whose duties require a knowledge of French; (d) that all Ontario’s Government Departments shall provide bilingual services in those field offices located in areas where there is a sufficient concentration of French-speaking persons.
21. *Mr. Nixon*—Motion for Return—That the Premier table the correspondence dealing with the resignation of senior officials of the Centennial Centre, and that the Premier table the minutes of all the meetings of the Board of the Centennial Centre since its inception.
22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.
31. *Mr. Reid* (Rainy River)—Resolution—Resolved that, in the opinion of this House, the voting age for electors in future provincial elections should be lowered to age eighteen.

32. *Mr. MacDonald*—Resolution—That the circumstances leading to the removal of patients from the Cara Villa Home be referred to the Standing Committee on Health for investigation and report on the procedures that should be followed in reviewing nursing home and homes-for-special-care licences.
34. *Mr. Reilly*—Resolution—That, in the opinion of this House, legislation should be enacted providing that no collective agreement shall contain a provision requiring, as a condition of employment, membership in or financial support of a specified trade union, or granting a preference of employment to members of a specified trade union or to such persons as a specified trade union may approve.
35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.
36. *Mr. Shulman*—Motion for a Return of Documents relating to my application, as former Chief Coroner of Metropolitan Toronto, for a hearing before the Public Service Grievance Board.
38. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House concurs in the historic words of that renowned statesman, the late Sir Winston Churchill, K.C., O.M., C.H., F.R.S., that “the Conservative Party is nothing less than a deliberate attempt on the part of important sections of the propertied classes to transfer their burdens to the shoulders of the masses of the people and to gain greater profits for the investment of their capital by charging higher prices” and that, among other things:—(a) by failing to control exorbitant increases in consumer prices through a Prices Review Board, and by failing to establish a floor on family income through adequate minimum wages and guaranteed incomes; (b) by cancelling out the pre-election promise of a \$50 saving per family through the Basic Shelter Exemption by a post-election hike in regressive taxes, including hospital premiums, of \$125 per family; (c) by rejecting universal medicare which would permit a 50% reduction in medical premiums; (d) by failing to protect farmers from corporate exploitation of all kinds and by failing to ensure them a fair share of provincial income; (e) by failing to develop the full potential of northern Ontario by not requiring the processing of its rich resources at home and by not providing conditions which will attract other secondary industry in order to diversify the economy of the North, increase employment opportunities and reduce the high cost of living which results from an under-developed economy; (f) by pursuing housing and urban renewal policies in conjunction with the Federal Government based on a philosophy of socialism for the rich and free enterprise for the poor amounting to a denial of the Government’s Throne Speech promise of adequate housing at reasonable cost for all Ontario residents; (g) by failing to protect tenants from soaring rents and unfair lease terms through

the establishment of a Rental Review Board and revision of archaic landlord and tenant law including provision for a standard lease; the Government has forfeited the confidence of this House and the people of Ontario.

NOTICE PAPER

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.
12. *Mr. Makarchuk*—Resolution—That this Government should take immediate measures to clean up the pollution in the Grand River in order to facilitate the use of the river for recreational purposes.
20. *Mr. Reid* (Scarborough East)—Resolution—That, in the opinion of this House: (a) any member of the Legislature of Ontario shall have the right to address the Legislature in either English or French; (b) the Department of Education shall establish special French language courses for Members of the Legislature wishing to acquire or improve their knowledge of French; (c) the Department of Civil Service and the Department of Education shall establish French language courses for civil servants whose duties require a knowledge of French; (d) that all Ontario’s Government Departments shall provide bilingual services in those field offices located in areas where there is a sufficient concentration of French-speaking persons.
21. *Mr. Nixon*—Motion for Return—That the Premier table the correspondence dealing with the resignation of senior officials of the Centennial Centre, and that the Premier table the minutes of all the meetings of the Board of the Centennial Centre since its inception.
22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.
31. *Mr. Reid* (Rainy River)—Resolution—Resolved that, in the opinion of this House, the voting age for electors in future provincial elections should be lowered to age eighteen.

32. *Mr. MacDonald*—Resolution—That the circumstances leading to the removal of patients from the Cara Villa Home be referred to the Standing Committee on Health for investigation and report on the procedures that should be followed in reviewing nursing home and homes-for-special-care licences.
34. *Mr. Reilly*—Resolution—That, in the opinion of this House, legislation should be enacted providing that no collective agreement shall contain a provision requiring, as a condition of employment, membership in or financial support of a specified trade union, or granting a preference of employment to members of a specified trade union or to such persons as a specified trade union may approve.
35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.
36. *Mr. Shulman*—Motion for a Return of Documents relating to my application, as former Chief Coroner of Metropolitan Toronto, for a hearing before the Public Service Grievance Board.
38. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House concurs in the historic words of that renowned statesman, the late Sir Winston Churchill, K.C., O.M., C.H., F.R.S., that “the Conservative Party is nothing less than a deliberate attempt on the part of important sections of the propertied classes to transfer their burdens to the shoulders of the masses of the people and to gain greater profits for the investment of their capital by charging higher prices” and that, among other things:—(a) by failing to control exorbitant increases in consumer prices through a Prices Review Board, and by failing to establish a floor on family income through adequate minimum wages and guaranteed incomes; (b) by cancelling out the pre-election promise of a \$50 saving per family through the Basic Shelter Exemption by a post-election hike in regressive taxes, including hospital premiums, of \$125 per family; (c) by rejecting universal medicare which would permit a 50% reduction in medical premiums; (d) by failing to protect farmers from corporate exploitation of all kinds and by failing to ensure them a fair share of provincial income; (e) by failing to develop the full potential of northern Ontario by not requiring the processing of its rich resources at home and by not providing conditions which will attract other secondary industry in order to diversify the economy of the North, increase employment opportunities and reduce the high cost of living which results from an under-developed economy; (f) by pursuing housing and urban renewal policies in conjunction with the Federal Government based on a philosophy of socialism for the rich and free enterprise for the poor amounting to a denial of the Government’s Throne Speech promise of adequate housing at reasonable cost for all Ontario residents; (g) by failing to protect tenants from soaring rents and unfair lease terms through

the establishment of a Rental Review Board and revision of archaic landlord and tenant law including provision for a standard lease; the Government has forfeited the confidence of this House and the people of Ontario.

NOTICE PAPER

GOVERNMENT MOTIONS

1. *Mr. Robarts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.
12. *Mr. Makarchuk*—Resolution—That this Government should take immediate measures to clean up the pollution in the Grand River in order to facilitate the use of the river for recreational purposes.
20. *Mr. Reid* (Scarborough East)—Resolution—That, in the opinion of this House: (a) any member of the Legislature of Ontario shall have the right to address the Legislature in either English or French; (b) the Department of Education shall establish special French language courses for Members of the Legislature wishing to acquire or improve their knowledge of French; (c) the Department of Civil Service and the Department of Education shall establish French language courses for civil servants whose duties require a knowledge of French; (d) that all Ontario’s Government Departments shall provide bilingual services in those field offices located in areas where there is a sufficient concentration of French-speaking persons.

22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.
31. *Mr. Reid* (Rainy River)—Resolution—Resolved that, in the opinion of this House, the voting age for electors in future provincial elections should be lowered to age eighteen.

35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.
36. *Mr. Shulman*—Motion for a Return of Documents relating to my application, as former Chief Coroner of Metropolitan Toronto, for a hearing before the Public Service Grievance Board.
38. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House concurs in the historic words of that renowned statesman, the late Sir Winston Churchill, K.C., O.M., C.H., F.R.S., that "the Conservative Party is nothing less than a deliberate attempt on the part of important sections of the propertied classes to transfer their burdens to the shoulders of the masses of the people and to gain greater profits for the investment of their capital by charging higher prices" and that, among other things:—(a) by failing to control exorbitant increases in consumer prices through a Prices Review Board, and by failing to establish a floor on family income through adequate minimum wages and guaranteed incomes; (b) by cancelling out the pre-election promise of a \$50 saving per family through the Basic Shelter Exemption by a post-election hike in regressive taxes, including hospital premiums, of \$125 per family; (c) by rejecting universal medicare which would permit a 50% reduction in medical premiums; (d) by failing to protect farmers from corporate exploitation of all kinds and by failing to ensure them a fair share of provincial income; (e) by failing to develop the full potential of northern Ontario by not requiring the processing of its rich resources at home and by not providing conditions which will attract other secondary industry in order to diversify the economy of the North, increase employment opportunities and reduce the high cost of living which results from an under-developed economy; (f) by pursuing housing and urban renewal policies in conjunction with the Federal Government based on a philosophy of socialism for the rich and free enterprise for the poor amounting to a denial of the Government's Throne Speech promise of adequate housing at reasonable cost for all Ontario residents; (g) by failing to protect tenants from soaring rents and unfair lease terms through

the establishment of a Rental Review Board and revision of archaic landlord and tenant law including provision for a standard lease; the Government has forfeited the confidence of this House and the people of Ontario.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.

36. *Mr. Shulman*—Motion for a Return of Documents relating to my application, as former Chief Coroner of Metropolitan Toronto, for a hearing before the Public Service Grievance Board.
38. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House concurs in the historic words of that renowned statesman, the late Sir Winston Churchill, K.C., O.M., C.H., F.R.S., that “the Conservative Party is nothing less than a deliberate attempt on the part of important sections of the propertied classes to transfer their burdens to the shoulders of the masses of the people and to gain greater profits for the investment of their capital by charging higher prices” and that, among other things:—(a) by failing to control exorbitant increases in consumer prices through a Prices Review Board, and by failing to establish a floor on family income through adequate minimum wages and guaranteed incomes; (b) by cancelling out the pre-election promise of a \$50 saving per family through the Basic Shelter Exemption by a post-election hike in regressive taxes, including hospital premiums, of \$125 per family; (c) by rejecting universal medicare which would permit a 50% reduction in medical premiums; (d) by failing to protect farmers from corporate exploitation of all kinds and by failing to ensure them a fair share of provincial income; (e) by failing to develop the full potential of northern Ontario by not requiring the processing of its rich resources at home and by not providing conditions which will attract other secondary industry in order to diversify the economy of the North, increase employment opportunities and reduce the high cost of living which results from an under-developed economy; (f) by pursuing housing and urban renewal policies in conjunction with the Federal Government based on a philosophy of socialism for the rich and free enterprise for the poor amounting to a denial of the Government's Throne Speech promise of adequate housing at reasonable cost for all Ontario residents; (g) by failing to protect tenants from soaring rents and unfair lease terms through

the establishment of a Rental Review Board and revision of archaic landlord and tenant law including provision for a standard lease; the Government has forfeited the confidence of this House and the people of Ontario.

34. *Mr. Reilly*—Resolution—That, in the opinion of this House, legislation should be enacted providing that no collective agreement shall contain a provision requiring, as a condition of employment, membership in or financial support of a specified trade union, or granting a preference of employment to members of a specified trade union or to such persons as a specified trade union may approve.
35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.
36. *Mr. Shulman*—Motion for a Return of Documents relating to my application, as former Chief Coroner of Metropolitan Toronto, for a hearing before the Public Service Grievance Board.
38. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House concurs in the historic words of that renowned statesman, the late Sir Winston Churchill, K.C., O.M., C.H., F.R.S., that “the Conservative Party is nothing less than a deliberate attempt on the part of important sections of the propertied classes to transfer their burdens to the shoulders of the masses of the people and to gain greater profits for the investment of their capital by charging higher prices” and that, among other things:—(a) by failing to control exorbitant increases in consumer prices through a Prices Review Board, and by failing to establish a floor on family income through adequate minimum wages and guaranteed incomes; (b) by cancelling out the pre-election promise of a \$50 saving per family through the Basic Shelter Exemption by a post-election hike in regressive taxes, including hospital premiums, of \$125 per family; (c) by rejecting universal medicare which would permit a 50% reduction in medical premiums; (d) by failing to protect farmers from corporate exploitation of all kinds and by failing to ensure them a fair share of provincial income; (e) by failing to develop the full potential of northern Ontario by not requiring the processing of its rich resources at home and by not providing conditions which will attract other secondary industry in order to diversify the economy of the North, increase employment opportunities and reduce the high cost of living which results from an under-developed economy; (f) by pursuing housing and urban renewal policies in conjunction with the Federal Government based on a philosophy of socialism for the rich and free enterprise for the poor amounting to a denial of the Government’s Throne Speech promise of

adequate housing at reasonable cost for all Ontario residents; (g) by failing to protect tenants from soaring rents and unfair lease terms through the establishment of a Rental Review Board and revision of archaic landlord and tenant law including provision for a standard lease; the Government has forfeited the confidence of this House and the people of Ontario.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person's home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.

Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.

32. *Mr. MacDonald*—Resolution—That the circumstances leading to the removal of patients from the Cara Villa Home be referred to the Standing Committee on Health for investigation and report on the procedures that should be followed in reviewing nursing home and homes-for-special-care licences.

35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.

adequate housing at reasonable cost for all Ontario residents; (g) by failing to protect tenants from soaring rents and unfair lease terms through the establishment of a Rental Review Board and revision of archaic landlord and tenant law including provision for a standard lease; the Government has forfeited the confidence of this House and the people of Ontario.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.

NOTICE PAPER

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.
7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.
12. *Mr. Makarchuk*—Resolution—That this Government should take immediate measures to clean up the pollution in the Grand River in order to facilitate the use of the river for recreational purposes.
20. *Mr. Reid* (Scarborough East)—Resolution—That, in the opinion of this House: (a) any member of the Legislature of Ontario shall have the right to address the Legislature in either English or French; (b) the Department of Education shall establish special French language courses for Members of the Legislature wishing to acquire or improve their knowledge of French; (c) the Department of Civil Service and the Department of Education shall establish French language courses for civil servants whose duties require a knowledge of French; (d) that all Ontario’s Government Departments shall provide bilingual services in those field offices located in areas where there is a sufficient concentration of French-speaking persons.

22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.
32. *Mr. MacDonald*—Resolution—That the circumstances leading to the removal of patients from the Cara Villa Home be referred to the Standing Committee on Health for investigation and report on the procedures that should be followed in reviewing nursing home and homes-for-special-care licences.

35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.

NOTICE PAPER

GOVERNMENT MOTIONS

1. *Mr. Roberts*—Resolution—That henceforth every member of this House may, as a matter of right, address the House in either of the two official languages of Canada.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That, in the opinion of this House, until such time as a minimum income is guaranteed to every citizen of Ontario, this government should forthwith introduce a comprehensive scheme of disability payments to guarantee an income to those citizens incapacitated by ill health and who qualify for neither unemployment insurance nor disability payments under The Workmen's Compensation Act.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

8. *Mr. Stokes*—Resolution—That, in the opinion of this House, the Government should forthwith announce its intention to participate at the earliest possible date in the universal medical care insurance program enacted by the federal Parliament, so that the full benefits of that program may be available to all residents of Ontario without delay.

11. *Mr. Renwick*—Resolution—(a) That the principle of “a home for a home” or equivalent re-instatement should apply in all cases where a person’s home is expropriated for public purposes; (b) that such person thereby be entitled to receive in compensation a number of dollars which would enable him to relocate in substantially equivalent accommodation, as an owner, without additional financial burden.
12. *Mr. Makarchuk*—Resolution—That this Government should take immediate measures to clean up the pollution in the Grand River in order to facilitate the use of the river for recreational purposes.
20. *Mr. Reid* (Scarborough East)—Resolution—That, in the opinion of this House: (a) any member of the Legislature of Ontario shall have the right to address the Legislature in either English or French; (b) the Department of Education shall establish special French language courses for Members of the Legislature wishing to acquire or improve their knowledge of French; (c) the Department of Civil Service and the Department of Education shall establish French language courses for civil servants whose duties require a knowledge of French; (d) that all Ontario’s Government Departments shall provide bilingual services in those field offices located in areas where there is a sufficient concentration of French-speaking persons.
21. *Mr. Nixon*—Motion for Return—That the Premier table the correspondence dealing with the resignation of senior officials of the Centennial Centre, and that the Premier table the minutes of all the meetings of the Board of the Centennial Centre since its inception.
22. *Mr. Lewis*—Resolution—That this House: 1. Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
24. *Mr. Smith* (Nipissing)—Motion for a Return—The minutes of the meetings of the Ontario Northland Railway Commission from January 1st, 1966, to the present date.
32. *Mr. MacDonald*—Resolution—That the circumstances leading to the removal of patients from the Cara Villa Home be referred to the Standing Committee on Health for investigation and report on the procedures that should be followed in reviewing nursing home and homes-for-special-care licences.

34. *Mr. Reilly*—Resolution—That, in the opinion of this House, legislation should be enacted providing that no collective agreement shall contain a provision requiring, as a condition of employment, membership in or financial support of a specified trade union, or granting a preference of employment to members of a specified trade union or to such persons as a specified trade union may approve.
35. *Mr. Nixon*—Resolution—That the possible conflict of interest, involving the Honourable Members for Beaches-Woodbine and Scarborough West in their positions as Directors of Brown Camps, be referred to the Committee on Privileges and Elections, and that the Committee be instructed to rule on this and on the rights and responsibilities of any Honourable Members of this House, doing business directly or indirectly with the government, under Rule 21 of this House and Section 9 of The Legislative Assembly Act.
36. *Mr. Shulman*—Motion for a Return of Documents relating to my application, as former Chief Coroner of Metropolitan Toronto, for a hearing before the Public Service Grievance Board.
39. *Mr. Shulman*—Resolution—That, in the opinion of this House, it should be a criminal offence to tap or listen in on any private telephone except with an authorization signed by a Judge of the Supreme Court.

7. *Mr. Sopha*—Resolution—That, in the opinion of this House, the Government of Ontario has neglected the proper development of the northern part of the Province of Ontario and the policy or lack of same pursued by the Government of Ontario has failed to promote the economic well-being and the prosperity of all of the people of Ontario and, particularly, the inhabitants of the northern part of the province, in that the government has failed in the following particulars: (a) to require that ores mined in Ontario be smelted and refined in Ontario; (b) to promote the utilization of the ores mined in Ontario in the manufacture of finished products in Ontario; (c) to take steps to attract and establish secondary industry in the northern part of the province; (d) to adopt and promote measures to increase the number of people who live in the northern part of the province; (e) to promote the ownership of a significant portion of the equity in natural resources industries by Canadians; (f) to create ways and means of training adequate numbers of people in the engineering and technical arts to engage in the development of our natural resources industries; (g) to recognize that the real wealth of Ontario is to be found in the natural resources of Northern Ontario.

It is further the opinion of this House that, in order to nurture, promote, create and develop a strong economy in the province of Ontario, it is vitally necessary that the natural resources of this province be used to their fullest extent within Ontario and the profit derived therefrom as far as possible remain in the hands of the people of Ontario for the advancement of their well-being and prosperity.

Urge the federal government vigorously to condemn the refusal of the United States to halt the bombing in Vietnam, thereby destroying prospects for a negotiated peace; 2. deplore the extent of Canadian complicity in that barbaric war, both by way of actual contributions to armaments and by way of a misguided foreign policy; 3. set aside a given period during each session for debate of important international issues, so that the collective legislative view can be impressed upon the government at Ottawa, and upon the outside world.
23. *Mr. Brown*—Resolution—That, in the opinion of this House, (a) all children coming before Juvenile and Family Courts for the first time should be placed on probation to non-institutional community services such as Big Brothers, Ottawa Youth Bureau, etc.; and (b) the Department of Reform Institutions should subsidize such programmes at the rate of the average per diem cost of maintaining such a child in an Ontario Training School in the previous fiscal year.
